

Virtual Reality?

TADWA has secured the exclusive Australia, New Zealand and Oceania rights to distribute the award-winning MyndVR virtual reality platform.

MyndVR is the premier provider of virtual reality (VR) solutions for senior living communities in the United States with an expansive content library and a sophisticated multi-viewer control system.

MyndVR has applications for:

- Reminiscence therapy
- Distraction therapy
- Recreation
- Socialisation

Virtual Reality is a proven technique to improve the lives of seniors who are experiencing greater isolation.

The MyndVR platform is designed for ease of use, can be driven by a carer, and provides a large and growing library of quality experiences.

To find out more, talk to TADWA. **1300 663 243**

MyndVR is ideally suited to residential aged care facilities, but can also be used for in-home care or private use.

The MyndVR package includes headset, navigation tablet and subscription to the MyndVR content library with new titles released every month.
